Summary

A dedicated and highly motivated Software Engineer with 1 year of comprehensive training in software development. Proficient in Java and JavaScript, with practical experience in designing and developing robust applications. Adept at leveraging modern frameworks like React and Angular to create dynamic, user-friendly interfaces and scalable solutions. Passionate about continuous learning and innovation, with a strong desire to contribute effectively to cutting-edge projects in a fast-paced tech environment.

Experience

QSpiders, **Ahmedabad**, **India** Full Stack Developer

07/2024 - 12/2024

- Developed dynamic front-end web applications using HTML, CSS, and JavaScript.
- Built interactive UI components and managed state with React hooks.
- Mastered Core Java concepts, Hibernate, and Spring Boot for scalable back-end services.
- Created RESTful APIs and dynamic web services using Java Servlets.

Prudent CAS Ltd., Ahmedabad, India

Software Engineer Intern

01/2024 - 06/2024

- Completed a 6-month internship at Prudent Corporate Advisory Services Ltd.
- Learned Angular, .NET, and SQL during this internship.

TatvaSoft, Ahmedabad, India

Intern

07/2023 - 08/2023

Successfully completed my summer internship at Tatvasoft Pvt. Ltd.

Education

Gujarat Technological University, Ahmedabad, India

Bachelor's of Engineering in Information Technology (CGPA: 7.44/10)

2020 - 2024

Ultra Vision Academy , Surendranagar, India

Higher Secondary (12th Science) (Percentage: 65%)

2020

Pramukh Swami Vidyalay, Sarangpur, India

Secondary School (10th) (Percentage: 84%)

2018

Skills

Front-end Technologies: HTML5, CSS3, JAVASCRIPT Back-end Technologies: Java, ASP.NET MVC, Basic PHP

Frameworks: React, Angular, Bootstrap

Databases: MySQL

Version Control: Git, GitHub Additional Skills: API Integration

Projects

1. CRUD Application

(HTML, CSS, JavaScript)

Developed a dynamic web application allowing users to Create, Read, Update, and Delete data seamlessly. The project demonstrates core web development skills, including responsive design, DOM manipulation, and efficient handling of user inputs for a user-friendly experience.

https://github.com/rahulhadiyal007/CRUD-APPLICATION.git

2. Tic Tac Toe Game

(ReactJS)

Developed an interactive Tic Tac Toe game featuring real-time gameplay logic to determine winners, losers, or draw scenarios. The project demonstrates proficiency in component-based architecture, state management, and dynamic rendering to enhance user engagement.

https://github.com/rahulhadiyal007/Tic-tac-toe.git

3. Movie Web

(HTML, CSS, JavaScript)

Built a movie search application fetching movie details using external APIs.

4. Bookstore Application

(ReactJS)

Developed an e-commerce platform for browsing and purchasing books with features like catalog browsing, user authentication, shopping cart, and API integration. Integrated a RESTful API for real-time book data and used React's useState and useEffect for state management.

Website: # https://bookstore-20ml.onrender.com/

5. Contact Manager

(ReactJS)

Developed a contact management application using ReactJS for the frontend and JSON Server for API-based data storage. Implemented features to add, edit, delete, and search contacts, providing a dynamic and user-friendly interface for managing contact information.

Website: # https://contact-manager-v889.onrender.com

6. Portfolio Website

(ReactJS)

Built a personal portfolio website using ReactJS to showcase skills, projects, and achievements. The website features a responsive design, interactive UI, and sections for displaying professional experience, projects, and contact information

Website: # https://rahul-portfolio-jr3b.onrender.com

7. Society Management System

(ASP.NET MVC, Angular, SQL)

Developed a platform for managing community resources using Angular and ASP.NET.
